Consent for Disclosure of Immunization Information to Local and State Health Departments

Immunizations are an important part of keeping our children healthy. Schools and State and Local health departments must monitor immunization levels to ensure that all communities are protected from potentially life-threatening diseases and, if necessary, respond promptly to an emerging public health threat. It is important that disease threats be minimized through the monitoring of students being immunized.

Sharing immunization and personally identifiable information including the students name, Date of Birth, gender, and address with local and state health departments will help to keep your child safe from vaccine preventable diseases. The Family Educational Rights and Privacy Act (FERPA), 20 U.S.C. § 1232g, requires written parental consent before personally identifiable information from your child's education records is disclosed to the health department. If your child is 18 or over, he or she is an "eligible student" and must provide consent for disclosures of information from his or her education records.

You may withdraw your consent to share this information in writing at any time.

I authorize	Eastpointe Community Schools	to release my
Local Health Departme timeliness of immunizat	cord to the Michigan Department of Health and I understand this information will be used ion services and to help schools comply with Memation and limited personally identifiable information.	to improve the quality and lichigan Law. This includes

**Parent/Guardian Acknowledgment of Expectations Please Initial:

Please review the following conditions: ☐ While waiting for the bus, your Student is responsible for: Getting on and off the bus at her/his assigned bus stop • Staying off of lawns, porches, driveways, fences, etc. around neighboring homes No yelling, screaming or talking loudly that will disturb or offend neighboring homes No littering No fighting No unacceptable language Boarding the bus in a respectful manner • Not approaching the bus until the bus has come to a complete stop and the bus door is opened • ECS - Zero Tolerance Policy applies while waiting for the bus • School/Transportation conduct codes are in place while waiting for the bus ☐ While on the bus your Student is responsible for: • Sitting in assigned seat, facing forward with no part of the body in the aisle or out of the window No Food & No Beverages No littering No fighting No unacceptable language No yelling, screaming or talking loudly that can distract the driver Carrying nothing other than school bags and musical instruments on the bus Being courteous and respectful at all times to fellow students and Bus Driver • ECS - Zero Tolerance Policy applies while riding the bus School/ Transportation conduct codes are in place while riding the bus ☐ As an ECS Parent with a student riding an ECS Bus your responsibilities are to: Make sure all necessary paperwork is completed and received by your students' school Know your students bus route information • Be responsible for your child's safety to and from the steps of the bus Know the rules governing bus riders (as listed above) • Enforce expected classroom behavior of your student while waiting for and riding the bus Discuss with your student the rules that are to be followed when waiting and riding the bus. • Bus disciplines will be handed out for the listed offenses and/or infractions above. Bus Disciplines could result in suspensions from riding the bus anywhere from 1 Day to the remainder of the school year. Riding the school bus is a privilege that can be taken away due to safety infractions and/or inappropriate behavior. School / Transportation conduct codes are in place while riding and waiting for the bus ☐ Please be advised that your child may be videotaped and voice recorded when being transported.

PARENT & ATHLETE CONCUSSION INFORMATION SHEET

WHAT IS A CONCUSSION?

A concussion is a type of traumatic brain injury that changes the way the brain normally works. A concussion is caused by a bump, blow, or jolt to the head or body that causes the head and brain to move quickly back and forth. Even a "ding," "getting your bell rung," or what seems to be a mild bump or blow to the head can be serious.

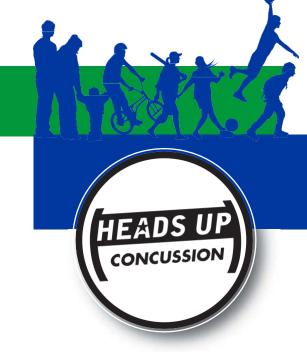

Signs and symptoms of concussion can show up right after the injury or may not appear or be noticed until days or weeks after the injury.

If an athlete reports one or more symptoms of concussion after a bump, blow, or jolt to the head or body, s/he should be kept out of play the day of the injury. The athlete should only return to play with permission from a health care professional experienced in evaluating for concussion.

DID YOU KNOW?

- Most concussions occur without loss of consciousness.
- Athletes who have, at any point in their lives, had a concussion have an increased risk for another concussion.
- Young children and teens are more likely to get a concussion and take longer to recover than adults.

SYMPTOMS REPORTED **BY ATHLETE:**

- Headache or "pressure" in head
- Nausea or vomiting
- Balance problems or dizziness
- Double or blurry vision
- Sensitivity to light
- Sensitivity to noise
- Feeling sluggish, hazy, foggy, or groggy
- Concentration or memory problems
- Just not "feeling right" or is "feeling down"

SIGNS OBSERVED BY COACHING STAFF:

- Appears dazed or stunned
- Is confused about assignment or position
- Forgets an instruction
- Is unsure of game, score, or opponent
- Moves clumsily
- Answers questions slowly
- Loses consciousness (even briefly)
- Shows mood, behavior, or personality changes
- Can't recall events prior to hit or fall
- Can't recall events after hit or fall

"IT'S BETTER TO MISS ONE GAME **THANTHEWHOLE SEASON"**

CONCUSSION DANGER SIGNS

In rare cases, a dangerous blood clot may form on the brain in a person with a concussion and crowd the brain against the skull. An athlete should receive immediate medical attention if after a bump, blow, or jolt to the head or body s/he exhibits any of the following danger signs:

- One pupil larger than the other
- Is drowsy or cannot be awakened
- A headache that gets worse
- Weakness, numbness, or decreased coordination
- Repeated vomiting or nausea
- Slurred speech
- Convulsions or seizures
- Cannot recognize people or places
- · Becomes increasingly confused, restless, or agitated
- Has unusual behavior
- Loses consciousness (even a brief loss of consciousness should be taken seriously)

WHAT SHOULD YOU DO IF YOUTHINK

YOUR ATHLETE HAS A CONCUSSION?

- If you suspect that an athlete has a concussion, remove the athlete from play and seek medical attention. Do not try to judge the severity of the injury yourself. Keep the athlete out of play the day of the injury and until a health care professional, experienced in evaluating for concussion, says s/he is symptom-free and it's OK to return to play.
- 2. Rest is key to helping an athlete recover from a concussion. Exercising or activities that involve a lot of concentration, such as studying, working on the computer, and playing video games, may cause concussion symptoms to reappear or get worse. After a concussion, returning to sports and school is a gradual process that should be carefully managed and monitored by a health care professional.
- 3. Remember: Concussions affect people differently. While most athletes with a concussion recover quickly and fully, some will have symptoms that last for days, or even weeks. A more serious concussion can last for months or longer.

WHY SHOULD AN ATHLETEREPORT THEIR SYMPTOMS?

If an athlete has a concussion, his/her brain needs time to heal. While an athlete's brain is still healing, s/he is much more likely to have another concussion. Repeat concussions can increase the time it takes to recover. In rare cases, repeat concussions in young athletes can result in brain swelling or permanent damage to their brain. They can even be fatal.

Virtual Learning Consent

Virtual learning is a method of receiving academic instruction in courses in which the pupil is registered and the courses are taken through a digital learning environment. Virtual learning may be offered at a supervised school facility during the day as a scheduled class period or through self-scheduled learning where pupils have some control over the time, location, and pace of their education. Virtual learning includes, but is not limited to, online learning and computer-based learning, where the delivery of instruction may incorporate a combination of software, technology, and the Internet.
